# SUBJECT INDEX

ACTH
  time-course of, stimulation of cortisol synthesis by the immature ovine foetal adrenal gland, 527
Aldosterone
  inhibitory role of nifedipine-sensitive calcium channels in, biosynthesis, 575
  serotoninergic stimulation of, secretion *in vivo*: role of the hypothalamo–pituitary adrenal axis, 29
Anabolic steroids
  characterization by GC/MS in human urine, 229
Androgen(s)
  biosynthesis in the immature pig testis, effect of phospholipids, 151
Androgen-regulated protein gene
  in the mouse vas deferens, 561
Androstane-3$\beta$,17$\beta$-sulfate(s)
  identification of, as secretory products of porcine Leydig cells, 113
16-Androstene(s)
  biosynthesis in the immature pig testis, effect of phospholipids, 151
Anti-androgens
  inhibition of CAT expression by, in mammalian cells, 787
Anti-progestin(s)
  novel, Org 31806 and 31710: interaction with mammalian progesterone receptor, 695
Aromatase
  in MCF-7 human breast cancer cells and its suppression by, inhibitors, 267

Benign prostatic hyperplasia
  androgens and androgen-receptors in prostate tissue from patients with, effects of cyproterone acetate, 49
  testicular and adrenocortical function in healthy men and in men with, 357
Breast tumours
  Type II oestrogen binding site is associated with the major 4S oestrogen receptor isoform in, 777

Calcium
  effect of dietary, supplementation on intestinal lipid metabolism, 375
CAT
  expression of, by anti-androgens in mammalian cells, 787
Cholesterol
  localization of the, oxidase in *Rhodococcus erythropolis*, 193
  side-chain cleavage by mitochondria from the human placenta, 883
  substrate specificity of, oxidase from *Streptomyces cinnamomeus*, 521
Chorionic gonadotropin
  regulation of progesterone secretion in human syncytiotrophoblast in culture by human, 425
Chromatin
  the methyltrienolone binding protein of JEG-3 cells and human placenta is associated with, 259
Chronic renal failure
  biologic effect of, 1,24(R)(OH)2D3 vs 1,25(OH)2D3 administration in, 823
Clonal human leukemic T-cell line
  glucocorticoid, interleukin-2, and prostaglandin interactions in, 1
Congenital adrenal hyperplasia
  plasma levels of $C_{19}$ steroid glucuronides in pre-menopausal women with non-classical, 211
Corticosterone
  comparative influx and efflux in isolated membrane vesicles, 757
  uptake of, by isolated membrane vesicles: binding and transport, 737
Corticosterone binding globulin
  a Leu→His substitution at residue 93 in human, results in reduced affinity for cortisol, 671
  comparison of the carbohydrate composition of, in rat and human, 475
Cortisol
  angiostatic activity and metabolism of, in the chorioallantoic membrane of the chick embryo, 687
  kinetics of, metabolism and excretion in multiple pituitary deficient patients, 169

Cytochrome $b_5$
role of, in adrenal microsomal steroidogenesis, 57
Cytochrome *P*-450
destruction of testicular, by 7α-thiospironolactone is catalyzed by the 17α-hydroxylase, 421
inhibition mechanism of reconstituted, antimycotic reagents and other inhibitors, 287
interference of polychlorinated biphenyls with membrane regulation of the activities of, in guinea-pig adrenal microsomes, 37
inverse relationship between ovarian aromatase, and 5α-reductase enzyme activities and mRNA levels during the estrous cycle in the rat, 439
steroid 6β-hydroxylase and 6-desaturase reactions catalyzed by adrenocortical mitochondrial, 95
Cytochrome *P*-450c17
changes in the expression of, associated with ovarian cystic follicles of the pig, 581

Dehydroepiandrosterone sulfate
and modulation of sex hormone-binding globulin levels in the hirsute patient, 607
Deoxycorticosterone
low sodium intake enhances sensitivity of 11-deoxycortisol and, to ACTH in ACTH-suppressed normal subjects, 617
metabolism of 11-, by hamster adrenal mitochondria, 375
11-Deoxycortisol
low sodium intake enhances sensitivity of, and deoxycorticosterone to ACTH in ACTH-suppressed normal subjects, 617
Dexamethasone
effect of, on nucleolar casein kinase II activity and phosphorylation of nucleolin in lymphosarcoma *P*1798 cells, 305
Diethylstilbestrol
long-term effects of postnatal exposure to, on uterine estrogen receptor and growth, 23
Dihydrotestosterone
possible indices for the detection of the administration of, to athletes, 87
5α-Dihydrotestosterone 3α(β)-hydroxysteroid dehydrogenase
purification and properties of the, from human prostatic cytosol, 321
DNA
genomic organization and, sequence of the mouse vas deferens androgen-regulated protein gene, 561
metabolic pathways for hormonal steroids appear to be reflected in the stereochemistry of, 659

Endometrial stromal cells
*in vitro* decidualization of human, 337
9-Ene-tetrahydrocannabinol
effects of, on uterine estrogenicity in the mouse, 713
Estradiol
effect of, on the nuclear androgen receptor occupation in the preoptic area of the male rat, 161
effect of wheat bran on excretion of radioactively labeled, injected intravenously in male rats, 103
metabolism of 2,4-dibromo [6,7-$^3$H]17β-, in the rat, 77
sexually differentiated metabolism of [6,7-$^3$H]17β-, in rats, 65
synthesis of, from oestrone in malignant breast epithelial cells, 891
Estrogen(s)
identification of and, -binding protein in *Pseudomonas aeruginosa*, 721
Estrogen platinum–diamine complexes
preparation of, and its binding to the estrogen receptor, 363
Estrogen-3-sulfates
binding of, to stallion plasma and equine serum albumin, 345
Estrone
metabolism of, in hamster and rat hepatic and renal microsomes, 389
Estrone-glucuronide
effect of wheat bran on excretion of radioactively labeled, injected intravenously in male rats, 103

FSH
role of 5α reduction in progesterone's ability to release, in estrogen-primed ovariectomized rats, 875
stimulatory and inhibitory effects of progesterone on, secretion by the anterior pituitary, 479

Gemfibrozil
effect of, treatment on serum levels of androstanediol glucuronide and adrenal androgens, 433
Glial cells
low density, lipoprotein receptors in primary cultures of rat, 597
Gonadotropin releasing hormone (GnRH)
effects of progesterone on, receptor concentration in cultured estrogen primed female rat pituitary cells, 831
Growth factor(s)
effects of progestins on the proliferation of estrogen-dependent human breast cancer cells under, -defined conditions, 457
effects of transforming, and regulation of their mRNA levels in two human endometrial adenocarcinoma cell lines, 449

Heat shock protein
a novel monoclonal anti-rabbit hsp90 antibody: usefulness for studies on hsp90–steroid receptor interaction, 863
association of the 90-kDa, does not affect the ligand-binding ability of androgen receptor, 803
cloning and regulation by glucocorticoid receptor ligands of a rat hsp90, 813
Hirsutism
dehydroepiandrosterone sulfate modulates sex hormone-binding globulin levels in patients with, 607
Human breast cancer cells
effects of dihydrotestosterone and hydroxyflutamide on androgen receptors in cultured, 547
effects of progestins on the proliferation of estrogen-dependent, under growth factor-defined conditions, 457
Human ovulation
a direct dot-enzyme immunoassay to detect, 223
3$\beta$-Hydroxy-5$\alpha$-androstan-17-one sulfates
identification of, as secretory products of porcine Leydig cells, 113
3$\alpha$,20$\beta$-Hydroxysteroid dehydrogenase
inhibition of *Streptomyces hydrogenans*, by licorice-derived compounds, 849
3$\beta$-Hydroxysteroid dehydrogenase-isomerases
kinetic evidence for separate, in androgen and 16-androstene biosynthetic pathways in the pig testis, 901

Ishikawa cells
colony stimulating factor-1 stimulates, proliferation, 121
immunocytochemical determination of estrogen and progesterone receptors in, 201

Leukemia (HL60) cells
kinetics of nuclear translocation and turnover of the vitamin D receptor in human, 111
Leukemic T-cell line
glucocorticoid, interleukin-2, and prostaglandin interactions in a clonal human, 1
Leydig cells
hydroxylation of 19-norandrogens by porcine, 637
identification of 5$\alpha$-androstane-3$\beta$,17$\beta$-diol and 3$\beta$-hydroxy-5$\alpha$-androstan-17-one sulfates as secretory products of porcine, 113
LHRH antagonist
properties of a potent (Org 30850), in female and male rats, 705
Low density lipoprotein
receptors in primary cultures of rat glial cells, 597

MCF-7 human breast cancer cells
contribution of aromatase to the deoxyribonucleic acid synthesis of, and its suppression by aromatase inhibitors, 267
effects on growth of, of triarylethylene carboxylic acids related to tamoxifen, 613
Medroxyprogesterone acetate (MPA)
an enzyme linked immunosorbent assay (ELISA) for plasma, 179
Monoclonal antibodies
antipeptide, to the glucocorticoid receptor, 467
mRNA
differential regulation and polyadenylation of transferrin, in *Xenopus* liver, 649
effects of transforming growth factors and regulation of their, levels in two human endometrial adenocarcinoma cell lines, 449

expression of oxytocin receptor, in human myometrium during pregnancy, 253
inverse relationship between ovarian aromatase cytochrome *P*450 and 5α-reductase enzyme activities and, levels during the estrous cycle in the rat, 439
Myometrium
expression of oxytocin receptor mRNA in human, during pregnancy, 253

Neoplastic endometrium
the receptor for human sex steroid binding protein is expressed on membranes of, 185
Nuclear hormone receptor(s)
zinc coordination scheme for the C-terminal zinc binding of, 131

Oocyte maturation
steroids involved with final, in the winter flounder, 351

Phosphorylation
effect of dexamethasone on nucleolar casein kinase II activity and, of nucleolin in lymphosarcoma *P*1798 cells, 305
Placenta
cholesterol side-chain cleavage by mitochondria from the human, 883
influence of 19-nortestosterone and androgens on progesterone biosynthetic enzymes in early human, explants, 841
the methyltrienolone binding protein of JEG-3 cells and human, is localized within the nucleus and is tightly associated with chromatin, 259
4-Pregnene-3-one-20β-carboxaldehyde
a potent inhibitor of 17α-hydroxylase/$C_{17,20}$-lyase and of 5α-reductase, 313
Preoptic area
effect of estradiol on the nuclear androgen receptor occupation of, in male rat, 161
Progesterone
influence of NADPH-dependent lipid peroxidation on the, biosynthesis in human placental mitochondria, 729
ontogenic development of liver, metabolism in female sheep, 499
Progestins
stimulate the differentiation of 3T3-L1 preadipocytes, 795

Receptor(s)
androgen(s)
and heat shock protein, 803
effects of dihydrotestosterone and hydroxyflutamide on, in cultured human breast cancer cells (EVSA-T), 547
in prostate tissue from patients with benign prostatic hyperplasia, 49
loss of androgen dependency with preservation of functional, in androgen-dependent mouse tumor (Shionogi carcinoma 115), 569
of dehydroepiandrosterone, in murine T cells, 293
estrogen(s)
identification of, by HPLC using a double isotope assay, 141
immunocytochemical determination of, in human endometrial adenocarcinoma cells (Ishikawa cells), 201
in MCF-7 cells, 613
long-term effects of postnatal exposure to diethylstilbestrol on uterine, and growth, 23
ontogeny and cellular distribution of, in normal mouse mammary gland, 589
regulation of human, in a yeast model system, 677
glucocorticoid(s)
cloning and regulation by, ligands of a rat hsp90, 813
monoclonal antipeptide antibodies to, 467
stress-induced changes of, in rat liver, 493
transformation and nuclear translocation of brain type I, 515
GnRH
effects of progesterone on, concentration in cultured estrogen primed female rat pituitary cells, 831
a novel monoclonal anti-rabbit hsp90 antibody: usefulness for studies on, interation, 863
oxytocin
expression of, mRNA in human myometrium during pregnancy, 253

progesterone
identification of, by HPLC using a double isotope assay, 141
immunocytochemical determination of, in human endometrial adenocarcinoma cells (Ishikawa cells), 201
interaction of antisteroid receptor complexes with, 695
vitamin D
kinetics of nuclear translocation and turnover of the, in human HL60 leukemia cells, 11
5α-Reductase
selective inhibition of, in the rat epididymis, 509

Sex hormone binding globulin (SHBG)
effect of, on testosterone transport into the cerebrospinal fluid, 629
in hirsute patients, 607
Sex steroid binding protein (SBP)
the plasma membrane of epididymal epithelial cells has a specific receptor which binds to, 279
the receptor for human, is expressed on membranes of neoplastic endometrium, 185
Shionogi carcinoma 115
loss of androgen dependency with preservation of functional androgen receptors in androgen-dependent, mouse tumor, 569
Sodium transport
effect of carbenoxolone sodium on steroid-induced, in the toad bladder, 911
Steroid(s)
anabolic, 18-hydroxylated metabolites of mesterolone, methenolone and stenbolone, in human urine, 399
epimerization and degradation of anabolic 17β-sulfate-17α-methyl, in human, 533
urinary metabolites of methyl-5α-dihydrotestosterones mesterolone and drostanolone, 411
Steroid dehydrogenase enzymes
ontogeny of testicular, in pig, 17
Steroid glucuronides
plasma levels of, in pre-menopausal women with non-classical congenital adrenal hyperplasia, 211
17β-Sulfate-17α-methyl steroids
epimerization and degradation of anabolic, in human, 533
Sulphotransferase
effect of essential fatty acid deficiency on hepatic bile salt, in rats, 625

Testosterone
changes in plasma, levels during the peri-hatching period in the chicken, 773
effect of sex hormone binding globulin on, transport into the cerebrospinal fluid, 629
evidence for direct action of, on rat liver cells, 243
Transforming growth factor
effects of, and regulation of their mRNA levels in two human endometrial adenocarcinoma cell lines, 449
Triaryethylene carboxylic acids
effects of, on MCF-17 cell growth, and estrogen receptor affinity, 613

Vitamin D
kinetics of nuclear translocation and turnover of the, receptor of human HL60 leukemia cells, 11
polyunsaturated fatty acids decrease the apparent affinity of, metabolites for human, –binding protein, 855

We wish to express our deep thanks to the following persons for their kind collaboration in reviewing papers for *The Journal of Steroid Biochemistry and Molecular Biology*: Drs M. E. Baker, Bethesda, U.S.A.; A. Belanger, Quebec, Canada; I. Bjorkhem, Stockholm, Sweden; C.-L. Cidlowski, Chapel Hill, U.S.A.; C. Cote, Quebec, Canada; M. E. Harper, Cardiff, Wales; R. G. Harvey, Chicago, U.S.A.; W. Heyns, Leuven, Belgium; R. A. Hiipakka, Chicago, U.S.A.; E. Johnson, Melbourne, Australia; M. D. Johnson, Washington, U.S.A.; L. Krey, New York, U.S.A.; K. K. Leslie, Denver, U.S.A.; M. Levitz, New York, U.S.A.; S. Mani, Houston, U.S.A.; S. McCleskey, Washington, U.S.A.; H. Michna, Berlin, Germany; L. A. Miller, Denver, U.S.A.; T. Ojasoo, Paris, France; E. B. Thompson, Galveston, U.S.A.; T. Thorsen, Bergen, Norway; Van Luu-The, Quebec, Canada; F. Vignon, Montpellier, France.
